THE TALKING CURE

MELISSA STERN
2012

*This is a mixture of visual,
written and audio art. A
wild and strange world of
sound and sight.*

Art

A groundbreaking collaboration between artist Melissa Stern, 12 writers and 12 actors. Stern made 12 mixed material sculptures and invited 12 writers to write the imagined monologue in each one's mind. 12 actors then recorded the monologues. Point your phone at the sculptures and they speak! A mixture of visual, written and audio artworks
